

Established in 2006, Cozy Networks, Inc supplies contract and permanent IT professionals nationwide. Cozy Networks, Inc has established a track record of fast and effective recruitment, tailored to the needs of individual clients. Our ability to provide quality solutions in all areas of IT underlies our rapid expansion and a leading player in a highly competitive market.

Whether your firm does business in the local, national or international market, or it is involved in manufacturing, distribution, transportation, banking, or you represent a state or local government agency, Cozy Networks, Inc. assigns you a team you can count on at the right price. Simply put, Cozy Networks, Inc is committed to excellence and professional services. Because we fully support and recognize the achievements of our consultants, they bring energy, imagination, dedication, and the highest standard of professionalism to everything they do on your behalf.

In short, whether your situation requires a single hands-on expert, or coordinated teams of professionals, we designate the best people to fit perfectly into specific work environment.

Cozy Networks consultants have over 10 years of combined technology experience delivering sites that streamline operations, provide effective marketing, build communities, and improve customer services and sales.
